Conference Theme

The scope of ICICEM -2023 is to present the latest research and results of academicians, professors and students related to Engineering scholars and professors to exchange new ideas, application experiences and also to establish business or research relations and to find global partners for future collaboration. The first aim of the conference is to provide opportunities for academics from a range of disciplines to share their research both through the conference podium and AERF's referred publications. The second aim of the Conference Series is to provide opportunities for academics to receive informal in-depth feedback through discussions and to enable them to establish contact with professionals in other countries and institutions.

About AERF

The Anveshana Educational Research Foundation is committed to supporting strategic, whole-of community approaches to education in order to make real, long term improvements in High School level to Higher Education level research outcomes to meet their educational potential. "To support world-class research activities, and create an internationally competitive research environment and innovation system in world". To build an internationally competitive research capacity for the economic and social development of the world it is intended that these research activities will enable to retain good scientists, to foster ideas and knowledge.
